

# NOXON Bluetooth Receiver

Stereo Bluetooth Audio Adapter

- Make your hi-fi systems bluetooth compatible
- Play all your favorite songs directly from your phone via bluetooth to any hi-fi systems
- Wireless transmission from Smartphones, Tablets, PC or Mac
- Manages and save up to 8 different playback devices, range up to 10 meters
- Build-in DSP co-processor (digital signal processor) for optimal audio signal
- Delivery: audio cable, USB cable, AC adapter for stationary use
- Integrated battery for mobile usage

The NOXON B1 is a portable bluetooth audio receiver. Due to the integrated battery you can also use it on the road for e.g. in the car. Via jack you can connect the NOXON Bluetooth Receiver with your hi-fi system or powered speaker. Just activate the bluetooth function from your smart phone, Tablet, PC or Mac and play your music from your smart phone on your hi-fi-system.

The NOXON Bluetooth Receiver is delivered with all the necessary cables and has also a USB power adapter for stationary usage.
