The NOXON iRadio M110+ fulfils all your needs in listening to music. If you want to listen to the internet radio, DAB+, DAB or FM radio, with the NOXON iRadio M110+ you can receive radio from all different technologies.

What is digital radio?

Digital Radio is the latest standard for radio reception via antenna. It takes analogue FM radio into the digital era. It offers a greater choice of programmes, new services, an excellent sound quality, simple operation and no search for frequencies. All these features can be enjoyed without any geographical limitation within a country.

Internet radio

Receive online music and information from the whole world. Listen to something other than the monotonous programming of your local radio stations for a change. With over 14,000 stations worldwide, the NOXON iRadio M110+ offers endless international variety. For example, you can listen to rock music from the USA or pop music from Africa, the news from Tokyo or comedy from Australia, the charts from Germany or podcasts from around the world. To make picking a station easy, everything is sorted by country and genre.

The NOXON iRadio M110+ offers the latest technology, but it is very easy to operate. The control dial with the pushfunction takes you through the various settings and stations. The ergonomic rocker-button brings you back. So you can come in seconds from Germany to Brazil or wherever the musical journey will go. You can enjoy DAB+, internet radio, FM, music from the hard disk in best quality - whatever you want to listen to, with the NOXON iRadio100+ you will definitely receive it.
