

Enjoy your DVD movies as if you were in a genuine cinema. Listen to your classic CDs as if you were in the middle of the actual orchestra. And experience your games as if everything was not just happening directly in front of your eyes but also all around you. The HomeArena TXR 884 takes you into the 7th dimension of sound!

The HomeArena TXR 884 is a 7.1 SpeakerSystem that can offer you more than just the classical surround sound. A powerful subwoofer and seven satellite speakers establish a sound world that immerses you in an atmosphere of true 360° surround sound.

With a frequency range of 18 Hz to 22 kHz and a powerful 84 Watt RMS the active SpeakerSystem delivers convincing results in the low-bass range with a varied middle range and crystal clear highs. It also offers optimum support for sound standards like DTS, Dolby Digital and Dolby Pro Logic (adequate decoder required).

The ConnX.1™ technology guarantees uniformly excellent sound – regardless of whether you connect the HomeArena TXR 884 to a standard sound card or a high-end X.1 system. And the SurFE™ can also reproduce a 5.1 channel audio source as 7.1 surround sound.

Technical Details

- Output: 7 x 8 Watt RMS (7 x 160 Watt P.M.P.O.) + subwoofer: 28 Watt RMS (560 Watt P.M.P.O.)
