### Television anywhere – mobile, flexible and easy

Looking television wireless at a picnic, in the garden or at the camping site. This is possible using the CINERGY MOBILE WIFI TV made by TERRATEC. With the compact box the user has his receiver in the pocket anywhere. The CINERGY MOBILE WIFI TV receives television signals in Germany/England via DVB-T. The programs are received wireless via WiFi by the Smartphone or Tablet. The user has to install the suitable App which is available free of charge for Android and Apple. The CINERGY MOBILE WIFI TV only weighs 67 grams and has compact dimensions of 40 x 64 x 20 millimetres.

### Wireless and compatible with Android and iOS

Laborious cabling are omitted, the mobile TV experience is completely wireless. The TERRATEC receiver is equipped with a built-in accumulator so that it is working for hours on the way without additional power supply. The App is working on all terminals from Android 4.0.3 on and on all iOS operating systems from version 5 on. Switch the receiver on and off by a push on the button, an LED will inform you about the energy status.

### Lots of useful features and a large scope of delivery

The CINERGY MOBILE WIFI TV has a recording function. The station scanning is working fully automatic, the receiver with multichannel sound supports the WLAN standard 802.11b/g. A DVB-T telescopic antenna, a DVB-T magnetic foot antenna and a MCX antenna adapter are included in the scope of delivery.

The accumulator is charged via a micro USB cable. A quick start guide and a service card are additionally included in the package.
